Sarosh Khan

Software Developer
+91-9834618646 sarosh983@gmail.com LinkedIn GitHub Portfolio

Summary

Software Developer with hands-on experience in building full-stack and backend applications using Python (Flask, FastAPI), Node.js, React and PostgreSQL. Completed a 6-month Infosys internship delivering a Scrum-based finance app with REST APIs, real-time WebSocket alerts and role-based access. Built and deployed a telemedicine platform with payments and role-based dashboards.

Experience

Infosys Aug'26 – Present
System Engineer Trainee

- Gaining hands-on experience in Java, Data Structures, DBMS (SQL), Unix, Advanced Python and web development frameworks through Infosys role-based training.

Infosys Dec'25 – May'26
System Engineer Intern *Mysore, India*

- Developed **FinVest**, a personal finance web app, in a 5-member **Scrum team** using **Python Flask, PostgreSQL and SQLAlchemy**, with expense tracking, budget alerts and savings goals.
- Built **RESTful APIs** for expense tracking, budget calculations and authentication; designed **PostgreSQL schemas** for transactions and analytics.
- Implemented **real-time WebSocket notifications** via Flask-SocketIO for 80% and 100% budget thresholds, enabling proactive overspending alerts.
- Implemented secure authentication using **bcrypt**, CSRF protection and **role-based access control (Admin/User)**.

Projects

Medimeet: Doctor Appointment Platform | *React, Next.js, TypeScript, Prisma, PostgreSQL, Razorpay, Tailwind CSS*

- Built a **full-stack telemedicine platform** with live video consultations, role-based doctor/patient/admin dashboards and real-time slot scheduling; **deployed on Vercel**.
- Designed **PostgreSQL data models** for doctor schedules, appointments and patient metrics; created analytics dashboards for booking performance and system insights.
- Integrated **Razorpay credit-based billing** and **Clerk + JWT authentication**; built modular REST APIs with Prisma ORM and tested endpoints using Postman.

StudyNotion: Full Stack EdTech Platform | *React.js, Redux, Node.js, Express.js, MongoDB, Cloudinary, Razorpay*

- Built an EdTech platform with **student dashboards, instructor course tools** and secure **Razorpay checkout**; added charts, leaderboards and progress tracking.
- Implemented **JWT + bcrypt + OTP authentication** and integrated **Cloudinary** for media delivery.

Twaiter: AI-Powered Twitter Agent | *Node.js, Express, MCP, SSE, Zod, Twitter API v2, OAuth2*

- Built an **MCP server** using Express + SSE with Zod-validated tools that let an LLM generate and post tweets via **Twitter API v2 and OAuth2**.

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, SQL, HTML, CSS
Backend: Flask, FastAPI, Node.js, Express.js
Frontend: React.js, Next.js, Tailwind CSS, Redux
Databases: PostgreSQL, MySQL, MongoDB
Tools: Git, Unix/Linux, Postman, Cloudinary, Clerk

Certifications

Programming and OOP using Java | Data Structures using Java | Database Management System | Advanced Unix | Advanced Python | Web Application Development using Flask

Achievements & Extracurricular

Research Paper – Springer (CSCT 2025): Co-authored & presented "A Smart Helmet: An Accident Detection System using IoT" at the **4th Congress on Smart Computing Technologies, NIT Sikkim**.

Naukri Campus Young Turks: Secured **97.21 percentile** in India's national-level engineering skills contest.

Education

G. H. Raisoni College of Engineering & Management, Pune 2022 – 2026
B.Tech in Information Technology | ***CGPA: 8.14*** *Pune, India*
